Natalie Weinstein Design Associates

459 Lake Aveue

St. James, New York, 11780

Dear Natalie,

I can't begin to thank you for all that you have done for my family in St. James.

My son and his family moved to St. James, and were unsure as to what to do at first, where to start. I decided that they needed a little help. So I researched for a decorator/designer in the area and found Natalie. I told her that it was going to be a gift to get them to get started. I figured that they couldn't say no. They were so excited about the idea.

From the beginning, you made me feel comfortable and confident in your abilities, and that I had made the perfect choice for them. Little did I know how accomplished you are, and so thrilled that I found someone of your caliber to help them. It definitely pays to have a professional come in and help get you started.

They are so happy and excited with what you have already accomplished for their home, and continue to work with you on several projects. The fact you have a network of people that also work with you is such a plus. I recommend this to anyone who wants to gift a consultation, as I did to help someone to get started.

Sincerely,

A handwritten signature in cursive script that reads "Hazel".
