

**BRENNER
DENTAL**

of Park Slope

Patient-Centered Care for
Outstanding Comfort and Beauty

Leonard J. Brenner, DMD, FAGD

June 8, 2014

Dear Natalie and Lisa and Lisa and Natalie:

It's now been about two and one half months that I am back in my newly renovated dental office and all I can say is "**unbelievable**"!!! Every morning when I walk in to my office, I get such an **amazing** feeling of a place where I want to and can practice the type of dentistry that can make any dentist proud of. The ambiance, the brightness, the coziness, not to mention the sense of a feeling of hygiene just prevails throughout the entire office!

The decor, all of the wall coverings, the lighting fixtures and furniture from Office Furniture Direct are perfect and is so inviting to promote a high integrity dental practice. The specific artwork and framed photos of the different neighborhoods of Brooklyn just tie in so well together and have a flow that is natural throughout the entire office.. it actually tells a story of Brooklyn! Kudos to Jack Adler for his photographic eye of excellence!

The cabinetry by David is sensational and I actually cannot stop admiring how perfect it is and the colors are so warm! The flooring by John Lyons just opens up the entire office and gives a modern yet warm sense of security and flow from one room to another! The carpeting by Peykar in both my private office and reception room are perfect and so welcoming to my patients and myself! The kitchenette for the staff is oh so comfortable and inviting for the staff to enjoy a break or lunch together in a relaxed and comfortable setting!

Let's mention the fabulous sterilization area, with the workable island for both storage, utilization and privacy from the actual operatories. Pedro outdid himself with the magnificent glass partition of the Brooklyn Bridge separating the sterilization area from the rest of the office allowing an open view of the area at the same time promoting a very hygienic and clean area for patients to appreciate our efforts of keeping the soiled instruments and materials away from the dental operatories.

The reception area is so cozy and makes the patients feel that they are in an office they feel they can call their dental home! The appointments of the magazine rack, coat rack and TV, as well as the little lamps and lamp tables and chairs is perfect.. and I love the wallpaper!! It's great!

I must tell you that the business office to accommodate the staff at the front desk is so roomy and conducive allowing them to handle their duties professionally in a proper environment and privacy when necessary.

Your coordination with Redwood Construction Company, GNS Tek computer and phone and sound systems as well as working with Cliff Brenner at Henry Schein to coordinate the colors of the equipment with the decor was orchestrated as well as can be given all that had to be done in such a short period of time for such a comprehensive

undertaking! Touche'!!

Now let's get to the most important aspect of the renovation...the **patient's perception!** Putting it simply... they **LOVE IT !!!!!** The compliments are unending as people are asking who coordinated the renovation and design. They are astonished that 'we' did it on only 3 weeks, and so well! They have a reassured sense that they are in the right place for their dental care and truly appreciate the effort that was made and accomplished to give them that sense of a high quality and functioning dental facility. Magnifico!!

So, in conclusion, if you cannot tell up to this point... **I Love It and I Love YOU Both!**

Thanks for putting up with me and my sometimes uncertainty of "where are we going with this" and "how do you know how to do a dental office"?!?! All I can say is **THANK YOU, THANK YOU, THANK YOU!!!!** Thank You and your entire staff at Natalie Weinstein for a job Very Well Done!!! Most importantly, thank you very much for giving Mallory and I, our lives back!! For that alone, we will be forever indebted!!!

Love,

t Leonard J. Brenner DMD, FAGD, FICD

P.S. Lisa - Thanks for making all those trips into Brooklyn!
Not to mention dealing with the "doormen"!!
→ Jim's great!
